ASIDE FOR CLASSICS

Survey of Educational Work in Secondary Schools Aided.

Pressure was low last night over the United States and maritime provinces and high almost generally over the United States except Maine and Florida. Fair weather hours except for local rains in the South Atlantic States and light local snows in the northern lake region and northern New England.

The temperature was lower to-day in the Atlantic States and along the Guil coast and higher in the middle and upper Mississippi Valley, the plain States and the Rocky Mountain region.

School, president of the American Classical League, announced to-day that the general education board has just appropriated \$50,000 to continue and complete priated \$50,000 to continue and complete the investigation or classical education in secondary schools. This, in addition to the \$60,000 previously appropriated, makes a total of \$110,000.

It is expected that the investigation now being made will be completed by January 1, 1924.

"About 125,000 pupils in about 750 schools, distributed through every State," said Dean West to-day, "are being tested if for a period of two years. Many special studies and controlled experiments are for a period of two years. Many special studies and controlled experiments are under way. Tre United States Bureau of Education, the college entrance examination board, the Department of Education for the State of New York, together with other educational bodies and seventeen leading professors of education or psychology, are also cooperating in the work.

"About 7,000 teachers of the classics, English, French and history have given or psychology, at a has cooperating in the work.

"About 7,000 teachers of the classics, English, French and history have given their services without compensation to help in conducting the investigation. It is a free will offering unmatched in the educational history of our country. Valuable information regarding changes and improvements in English and French classical education is being secured from the British and French Ministers of Education and through other agencies."
